1. The Amendment filed March 28, 2001 (Paper No. 10) in response to the Office Action of September 29, 2000 (Paper No. 8) is acknowledged and has been entered. Previously pending claims 2, 3, 6 and 7 have been canceled and claim 1 has been amended. Claims 1, 4, 5, 11, 12 and 33 are currently being examined.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. The following rejections are being maintained:

Claim Rejections - 35 USC § 112

4. Claims 1, 4, 5, 11, 12 and 33 remain rejected under 35 USC 112, first paragraph for the reasons previously set forth in Paper No. 8, Section 4, pages 2-5.

Applicant argues that the rejection should be withdrawn in view of the amendment in claim 1 that now covers only pentamers of units containing an oligomerization domain, a spacer and a binding domain. The argument has been considered but is not found persuasive because the rejection is drawn to the fact that there is no identification of any oligomerization domain that functions as contemplated, and now claimed, other than the COMP oligomerization domain. Although Applicant is not required to disclose every species encompassed by a genus, the description of a genus is achieved by the recitation of a representative number of molecules. The teaching of a single example is not sufficient description of a representative number of species that would serve as a written description for the genus claimed. For the reasons previously set forth, this is insufficient to support the generic claims. Further, Applicant does not address the other issues raised in the rejection drawn to spacers and the lack of structural information that

Art Unit: 1642

could distinguish the compounds in the genus from others excluded. Applicant's arguments have not been found persuasive and the rejection is maintained.

5. Claims 1, 4, 5, 11, 12 and 33 remain rejected under 35 USC 112, first paragraph for the reasons previously set forth in Paper No. 8, Section 5, pages 5-10.

Applicant argues that, (a) in view of the amendment of claim 1, the rejection should be withdrawn, (b) claim 11 limits the pentamerization domain to the COMP domain. The arguments have been considered but have not been found persuasive (a') and (b) for the reasons set forth above and further because, as drawn to claim 11, Applicant has not addressed the issues raised drawn to a whole universe of acceptors and a whole universe of spacers or unpredictability of the spacer art and as drawn to all of the other claims, Applicant has not addressed the issues raised drawn to a whole universe of acceptors, a whole universe of pentamer oligomerization domains and a whole universe of spacers or unpredictability of the spacer art. Applicant's arguments have not been found persuasive and the rejection is maintained.

6. Claim 11 remains rejected under 35 USC 112, first paragraph for the reasons previously set forth in Paper No. 8, Section 6, page 10.

Applicant argues that Kajava describes the core COMP domain. The argument has been considered but has not been found persuasive because the use of laboratory designations only to identify a molecule renders the claims indefinite because different laboratories may use the same laboratory designations to define completely different molecules.

New Grounds of Rejection

Art Unit: 1642

Claim Rejections - 35 USC § 112

7. Claims 1, 4, 5, 11, 12 and 33 are rejected under 35 USC 112, second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 4, 5, 11, 12 and 33 are indefinite because claim 1 recites the phrase "consists essentially of". The claims are indefinite because it is not clear what is encompassed by consisting essentially of and therefore the metes and bounds of patent protection claimed cannot be determined. The rejection can be obviated by amending the claim to delete the phrase "consists essentially of" and substituting the term "comprises".

8. All other rejections and objections recited in Paper No. 8 are withdrawn.

9.. No claims allowed.

10. Applicant's amendment necessitated the new grounds of rejection.

Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 C.F.R.

§ 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT

Art Unit: 1642

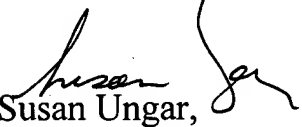

TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
